PROFILE

My CCNA certification has provided me with strong networking skills, including IP addressing and subnetting, configuring and troubleshooting Cisco routers and switches, implementing VLANs, inter-VLAN routing, static and dynamic routing protocols such as OSPF and EIGRP, and a solid understanding of network infrastructure.

I have been actively involved in several major projects, such as:

- Leading the complete firewall reconfiguration and network structuring for Zamzam Exchange Company across 32 branches.
- Designing and implementing the network infrastructure for a new branch of Al-Isawi Exchange.
- Participating in the Madoura Agricultural Project, contributing to its network setup.
- Installing and configuring Access Points (APs) from various top-tier global brands.
- Proficient in security camera systems installation and configuration.

In addition to my technical skills, I am passionate about solving problems, learning continuously, and working in dynamic environments. I am currently seeking an opportunity to contribute to a professional team and further grow in the field of networking and cybersecurity."

EXPERIENCE

Al-Bo'd Al-Thulathi for Computers	**2020-2021**
Amwaj-tech	**2024-2025**

CERTIFICATE

- CCNA
- MCSA
- Sophos firewall v21.0
- Sophos Firewall technical v21.0
- A+
- veeam backup
- Sophos Central -anti-virus
- Sophos Central Technician

EDUCATION

Al Hussein Bin Talal University   2020-2025

Graduated with honors with a cumulative GPA of 91.95% (Excellent), ranked first in my class, reflecting strong academic performance and dedication.
Throughout my studies, I gained both theoretical and hands-on knowledge in networking and cybersecurity. My academic background was reinforced by real-world experience, including working with Sophos Firewall, participating in professional internships, and obtaining multiple international certifications in the field.

SKILL

- Troubleshooting
- internet protocol suite(TCP/IP)
- Computer maintenance
- Communication
- Interpersonal skills
- Leadership
- Routing & Switching
- Technical support
- Camera configuration

LANGUAGE

- Arabic – Native
- English – very good
